Language Skills

- Russian - native
- English - intermediate
- Romanian - intermediate
- Turkish - intermediate

Iuri Radulov

Full stack Developer

Summary

I am a Full stack developer with specialization in JavaScript and PHP. I worked with JS frameworks: React, Vue and PHP framework Laravel. I worked as front-end as back-end developer. In back-end I used Node.js for JS and Laravel, Backpack for PHP. I have been interested in programming since a long time and wanted to make something important and useful. A lot of practice and work for the result are important for me. Also I am focused on the company development and on the team communication.

Project experience

1. Unboxed Fillers

Authentic dermal fillers and injectables from the USA, EU, and South Korea. Using PHP, JS, Laravel, Filament, SQL.

2. BizEntry

Website which will help to open your business in the USA. Using PHP, JS, Laravel, Filament, SQL.

3. Vitra

E-Commerce Website with Admin Panel for company Vitra. Using PHP, JS, Laravel, SQL.
